CA Medi-Cal Billing and Peer Certification – Questions from Grantees

Will counties require peer run organizations to be peer certified to contract?

-

Where do we find the right person/agency to talk to in i.e. Orange County about Medi-Cal billing processes for Peer-based Recovery Community Organizations?

How will the grandparenting process be made accessible to peer support specialists who need to take the exam in a threshold language other than English? And how can they access scholarships?

When will we get information about what will be on the exam? What kind of study guide will be made available to grandparenting candidates, and when?

What is the update with Peer Supervision training? Will this training be done by DHCS through an LMS?

How can organizations become site certified for billing Medi-Cal?

Once we receive information on becoming Medi-Cal approved, is there an accelerated path to becoming a Medi-Cal approved provider?

For Kathleen:

What do grantees do about their TTA Plans and program goals if their county is opting out or they are being stone-walled by their county or CBHDA?

What are their other options with the county?

Questions & Open Discussion
